NUMBER 204.

COST ELEVEN LIVES.

A Fierce Tornado Suddenly Bursts Upon the City of Baltimore.

PROPERTY DAMAGE VERY HEAVY.

Storm Spent Its Violence In the Residential Section and Along the Harbor, Nine of the Victims Being Drowned.

Baltimore, July 21.—A fierce tornado, characterized by a windstorm of extraordinary velocity, thunder, vivid lightning and a heavy rain, suddenly burst upon Baltimore Sunday afternoon, coming from the southwest, with the net result that 11 persons lost their lives, hundreds of houses were unroofed, trees in the public parks and streets were torn up by the roots, many buildings damaged and several people injured. The storm exhausted its fury in less than 15 minutes. The damage done in the business part of the city was comparatively slight, being confined to the blowing down of signs and injuries to roofs. It was in the residence portions of the city along the rivers and the harbor where the wind spent its violence. Of those who perished nine were drowned in the harbor from open boats, one was killed by a falling tree and one by a live wire.

The following is a list of the killed: Drowned in the harbor—Roy Bateman, 12; Joseph Cain, 10; John Cain, 6; Thomas Carroll, 21; Harry McCormick, 19; Mrs. Mary Schuler, 28; Harry S. Schuler, 10 months; Olive Schuler, 4; Charles Schuler, 7. Killed by falling tree: William Cornish, colored. Killed by live wire: Charles Schaefer.

The first three victims on the above list were out in a rowboat on the river with three other companions. When the storm broke the boat was capsized, three being drowned and three being rescued by the tugboat Edna V. George. The boy killed by a live wire had, in company with two other boys, gone into a shed for protection, when the shed blew down and a live wire fell on one of them, resulting in his death.

The drowning of Mrs. Schuler and her children was the most pathetic incident of the hurricane. Michael Schuler with his wife and three children, accompanied by his brother-in-law, Joseph Cook, and his wife, had gone out into the harbor for a sail in a 30-foot boat. When the storm came Schuler and Cook took in sails. Schuler sent his wife and children into the little cabin and he stood at the tiller, to keep the vessel's head toward the wind. A sudden gust of wind threw the boom of the vessel around, knocked Schuler down and pinned him to the deck. Another gust capsized the boat, releasing Schuler, who, with Cooper and his wife, was thrown into the water, leaving Mrs. Schuler and her children pinned in the cabin. Cooper saved himself and his wife by hanging to the bottom of the overturned boat, and Schuler saved himself in the same way after making frantic efforts to get at his imprisoned wife and children. A crew from the schooner Edward H. Hunt rescued Schuler and Cooper and wife, and towed the capsized vessel to the wharf, where it was righted and the dead bodies of Mrs. Schuler and her three children taken from the cabin.

Thomas Carroll, with four other young men, were out in the harbor in a rowboat, which was capsized. Carroll was drowned, while his four companions clung to the rudder of the Merchant and miners' steamship Chatham, from which perilous position they were rescued by the tug Mary.

A colored camp meeting was in progress in Paradise grove, near Powhattan, on the Liberty road. The congregation had just been dismissed when the storm broke. A huge tree fell upon the tent in which the services had been held. Several of the worshippers were caught beneath it as it fell. The tree had to be sawed into pieces before the imprisoned men and women could be released. William Cornish was crushed to death by the falling tree. The others were not seriously hurt.

The damage to property in this vicinity approximates \$300,000.

Earthquakes In St. Vincent.

Port of Spain, July 21.—A dispatch from St. Vincent states that the island is in consternation over a series of violent earthquake shocks. The tremblings began Thursday morning and were so severe that all the business houses of Kingston were deserted. Many buildings were badly cracked by the shaking of the ground and further news from the island is anxiously awaited.

BOTH IN FINE SHAPE.

Jeffries and Fitzsimmons' Condition. Canards Nailed.

San Francisco, July 21.—Interest in the Jeffries-Fitzsimmons fight is increasing. People are coming from the east and interior parts to see the contest, and seats are being sold rapidly. George Siler, the well-known referee, is among the latest arrivals. There has been no change in the odds and very little betting at the 10 to 4 price quoted. Jeffries' people are holding out for a shade better quotation.

Referring to the rumor that Jeffries is out of condition, Billy Delaney said: "It is all nonsense. Jeffries was never in better shape in his life than he is right now, or as good for that matter. He is exactly where I want him. To keep him there I have asked him not to do much work for the next few days. It is always a sign to cut out hard training when a man commences to get cranky. Wednesday Jeff was a bit out of sorts, and I asked him to call a halt. He has done it—nothing more."

Along with the rumors of Jeffries' condition was another to the effect that Eddie Graney was not to referee the fight. That also proved to be a fake, arising from the fact that some difference existed between him and the club as to the price for his services.

Fitzsimmons has been examined by the San Francisco Athletic club's physicians and pronounced to be in perfect physical condition.

Chinaman's Peculiar Position.

San Francisco, July 21.—Lo Lin Jow, a Chinaman, who had been refused a pass here by the Chinese bureau in this city, is in a peculiar position. He is desirous of taking a trip to China, but has no certificate of registration, as he claims he is native born. The bureau refuses to admit that he is a native, though it has not detained him for deportation. In order to have a chance to show in court that he is a citizen Jow had himself arrested and charged with illegal residence in this country. He was brought before United States Commissioner Heacock for a hearing, but the commissioner ordered him dismissed from custody. Heacock declares that if he granted a hearing on such a charge to Jow that thousands of Chinese would follow their countryman's example and try to prove their citizenship.

Improvement of Monongahela.

Washington, July 21.—Captain W. L. Sibert, engineer in charge of the river harbor at Pittsburg, in his annual report, makes no recommendation covering the improvement of the Monongahela in West Virginia. The amount available July 1, 1902, was \$796,979, while the uncompleted contracts called for only \$671,447. He recommends, however, that \$455,961 be appropriated for the completion of the existing project for the improvement of the Monongahela in Pennsylvania. Only \$10,000 is recommended for the maintenance of the improvement at the harbor at Pittsburg.

World's Fair Gymnasium.

St. Louis, July 21.—Work has begun on the excavation for the gymnasium, which, with the gigantic amphitheater, will be the center of the physical culture exhibit of the Louisiana Purchase exposition. The gymnasium will cost \$1,500,000, and will have accommodations for 2000 people. Simultaneously with the erection of the gymnasium, the great amphitheater and athletic field, which will be used during the World's fair for athletic contests, turner exhibitions and sports of all kind, will be carried to completion.

Ten-Million-Dollar Plant.

Pittsburg, July 21.—The United States Steel corporation has accepted the offer of the citizens' committee of McKeesport and will build its \$10,000,000 tube plant in that city. This announcement was made by members of the committee. This announcement of the steel corporation is taken as an indication that the scheme to build a big tube plant at Conneaut has been abandoned. It is probable, however, that the proposed works at Lorain will be built at a cost of about \$10,000,000.

Soldiers in a Riot.

Leavenworth, Kan., July 21.—The incipient riot started by several hundred soldiers from Fort Leavenworth, who demolished the house of a negro in the low quarter here following the stabbing of Eli Loucke, a cavalryman, by an inmate of the place, ended quietly shortly after midnight. A company of the Fourth cavalry rounded up those soldiers who had not voluntarily returned to the post. Loucke is reported to have a chance of recovery. Groups of soldiers continue to discuss the affair, but it is believed no further trouble will occur unless Loucke dies. The general sentiment is with the soldiers.

MANY MILLIONS LOST.

Floods In the Upper Mississippi the Most Disastrous In History.

WORST, IT IS FEARED, YET TO COME

Hundreds of Farmers, Wealthy a Few Days Ago, Now Penniless and Homeless—The Deluge and What It Reveals.

Keokuk, Iowa, July 21.—Exploration of the flooded districts of the Mississippi river from Keokuk south shows conditions beyond the appreciation or realization of any but people of long experience with the Father of Waters in its most destructive mood. The situation is growing worse hourly, and a great conflagration in a great city would not be more rapidly destructive of values than the antithesis a hundred miles below Keokuk. There is absolutely not the slightest chance of stopping this dozen times most costly flood in the history of the great river above St. Louis.

The correspondent of the Associated Press went all over the worst damaged area in the steamer Silver Crescent, and found everywhere the greatest crops ever known under water deep enough to float a steamboat. People at the river cities give an immense mass of details, all to be generalized in losses aggregating many millions of dollars, hundreds of farmers rich 10 days ago penniless and homeless, hundreds watching and praying that the great levees may hold, which are now their bulwark against additional millions of loss and many cases of penury. Careful estimates of the territory covered and generalization of the statements of best informed people indicate the loss up to today is about \$6,000,000, with every prospect of \$2,000,000 or \$3,000,000 additional by the rise above not yet reaching the lower stretches of the river. Most of this loss is on the Missouri side of the river between Keokuk and Hannibal.

Passing the water-lapped lumber yards of Keokuk, the mouth of the Des Moines river is seen to be nearly two miles wide. Normally there are two mouths and an island delta covered with farms, which are now under raging torrents. Alexandria was protected to the last by the Egyptian levee, the breaking of which would send four feet of water all over the town. Gregory is submerged except the white church. Other towns and cities on the islands are beyond the danger line. Immense fields are seen in a great lake with the shore line visible only with a glass, where the high bluffs bound the bottoms. Islands dotting the river at its normal stake have disappeared except for the tops of trees or fringe of high shore willows slightly protruding like a circular coral reef. Occasionally a house on stilts is seen, but generally only roofs protrude to mark the center of farms of corn. On the edge of the flood river corn gradually rises on a slope, tassels, tops, ears and stalks appearing in order. In a few of the half-submerged fields is shocked wheat in the background, the remnants of many more washed to the Gulf of Mexico. In the middle of the present river the tracks of the St. Louis, Keokuk and Northwestern railroad, normally the Missouri shore, are now a few inches above the water and under it in some stretches. Shore lights for pilots are standing in the midst of a waste of waters, where steamboats can run over them. The river is five to 10 miles wide and 70 miles long, and another great lake is added to the geography. All this territory was practically covered with corn a fortnight ago, estimated to make 75 or 100 bushels to the acre. Previous estimates of the loss have been greatly increased by the prospective yield being found much greater than ever before, experts telling of many farms that were good for 100 bushels of corn to the acre before the flood. The loss is total.

The chief flood thus far is on the Missouri side, from Keokuk to Louisiana, with Canton and West Quincy as centers of the country hurt worse. On the Illinois side are three continuous levees for 40 miles, from Warsaw to Quincy, above the water, and are thus far safe, but farmers are afraid of crevasses from muskrat holes, and every rod of the redoubt is watched day and night. The breaking of these levees would flood 175 square miles in Illinois and destroy \$2,000,000 to \$3,000,000 worth of corn. The levees below Quincy are in the same situation, except that they are lower and less firm.

Opposite Quincy, in Missouri, is still another center of special devastation which is appalling. North 12 miles to LaGrange and south to Holton

large prairies are well under water, reaching from the Illinois bluffs to the Missouri bluffs, at least 10 miles. Levees hastily thrown around farms have disappeared in a fierce current rushing from above through the draw of the Burlington route bridge, carrying everything before it.

PASSENGERS MAIMED.

Terrific Head-End Collision Between Two Express Trains.

Rochester, N. Y., July 21.—A fatal head-on collision occurred between two passenger trains on the Lehigh Valley railroad near Hope hospital, his city, in which one person was almost instantly killed and 15 others more or less seriously injured. Both trains were running at a high rate of speed when they came together. An engine and one passenger coach in one of the trains was thrown from the track down an embankment and into the Erie canal feeder, and was completely wrecked. The other engine was demolished, but remained on the roadbed.

Peter W. Putnam, 36, Rochester, freeman westbound train, was killed. He leaves a widow and two children. It is thought all of the injured will recover.

A French View.

Paris, July 21.—The Temps, commenting upon the negotiations between William H. Taft, governor of the Philippine Islands, and the vatican, says: "Notwithstanding the courteous language used by both sides, the vatican's reply to Governor Taft's last note is tantamount to a rejection of the American offers, which amounted to nothing less than the conclusion of an indirect concordat with the United States. The signature of such a convention would have given the apostolic delegate in Washington a sort of diplomatic exequatur, permitting him to confer directly with President Roosevelt or the government without the intermediary of an American citizen, such as Archbishop Ireland. The vatican, in refusing to lend a hand in the gradual expulsion of the religious congregations from the Philippines, has at the same time stifled the germ of an American concordat, which would have been a triumph for the policy the pope has seemed so ardently to pursue since his advent."

Mysterious Shooting.

Hopkinsville, Ky., July 21.—While Frank and John White, prominent young planters, were driving home from Burgoo, the former was shot and killed. John White, who is said to have been drinking, claimed his brother was fired on from ambush and that he made an effort to kill John Knight, a boy, whom he accused of the crime. Knight established an alibi, and the verdict at the inquest was that Frank was shot by a party unknown. The dead man's coat was burned by powder and the ball entered his life side, ranging upward through the heart. It is generally believed that John White accidentally killed his brother.

John W. Mackay Dead.

London, July 21.—John W. Mackay of San Francisco, who had been suffering from heat prostration since Tuesday last, died at his residence on Carlton House terrace at 6:50 Sunday evening. Mr. Mackay was unconscious most of the day and died very peacefully. The immediate cause of his death was heart failure. The right lung was found to be congested and the symptoms indicated pneumonia. Mrs. Mackay, her mother and Countess Telfener were present when Mr. Mackay died, and Princess Gaioto Colonna arrived from Paris a half-hour after her stepfather's death.

Danger Point Reached.

Peoria, Ill., July 21.—The Illinois river stands in imminent danger of causing thousands of dollars' worth of damage to buildings and manufacturing in Peoria. The damage already caused along the lowlands by the floods will be but a drop in the bucket as compared with what it will be if the water gets one foot higher. People living along the bottom lands both above and below Peoria have sought the highlands and have driven their stock with them.

Boat Capsized.

Rochester, Md., July 21.—James B. Post, 20, and Theodore C. Parker, 21, of Baltimore, who came here on an excursion, were drowned. They and four companions were rowing in the bay. A wind squall overturned the boat. The other occupants of the little craft clung to it until rescued.

Love Tragedy.

Marshall, Mo., July 21.—George Willey shot and killed Miss Dovie Flynn, stepdaughter of Richard Dearking, a railway employe, at the latter's home here, and then committed suicide. The woman had refused to marry him.

ARBITRATION SOUGHT.

Civic Federation to Make Another Appeal to the Coal Operators.

TIME HELD TO BE PROPITIOUS.

National Strike Headquarters to Be Reopened at Wilkesbarre—Review of the Action of the Indianapolis Meeting.

Wilkesbarre, Pa., July 21.—The strike headquarters of the United Mine Workers in this city, which have been closed since President Mitchell went west, will be reopened on Tuesday, when Mr. Mitchell and the district presidents will return to this city. After a brief conference as to how relief fund shall be distributed, the subordinate officers will return to their homes and take charge of the distribution in their respective districts. When Mr. Mitchell returns to this city he is expected to remain here until the strike comes to an end. It is said now that the miners have defined their position, the Civic Federation will make another appeal to the coal operators to arbitrate.

The recommendations contained in President Mitchell's address were adopted by the convention of United Mine Workers at Indianapolis, the only change from the original draft being a 10 per cent assessment as applying to Indiana (block), Illinois, Iowa, Tennessee, Kentucky and Missouri fields, while the \$1 per week assessment, which was his original proposition, was made operative in central and western Pennsylvania, Ohio, Maryland, Alabama, Indian Territory, Colorado and Kansas. It is expected that this will strengthen the treasury \$250,000 weekly, besides which a general appeal is to be made to the public on which the general officers confidently expect that \$1,000,000 monthly will be realized. Fifty thousand dollars was ordered placed at the disposal of the anthracite district.

NOW DESIRES PEACE.

Moro Sultan Writes Another Letter to the American Commander.

Manilla, July 21.—The sultan of Balabac, who recently sent an insulting worded communication to the commander of the American expedition at Lake Lanao, in which he threatened to begin offensive operations in August, has now written a friendly letter to the commander of the American forces, in which he disavows all desire to fight and says he will confer with the Americans in the future. The general Moro situation is regarded as favorable.

Devoured by Fire.

Dallas, Tex., July 21.—Fire broke out in the exposition grounds, located in the suburbs of East Dallas, and in 30 minutes the main exposition building, one of the largest buildings in the country; the music hall annex, the poultry building, the private buildings of the J. I. Case Plow company, Southern Rock Island Plow company and that of the Parlin Orendorff company were destroyed. The loss will reach \$100,000, with insurance of probably \$30,000.

Serious Village Fire.

Hopkinsville, Ky., July 21.—A conflagration of unknown origin destroyed the principal business block in Cadiz, Trigg county. Rawles' saloon, in which the fire started, the Cadiz hotel, Cumberland Telephone Exchange, J. J. Garton's dry goods store, H. M. Garton's hardware store, the Bank of Cadiz, F. P. Cobb's general store, William Lynch's dry goods store and C. A. Chappell's grocery were consumed. Loss \$60,000, insurance \$25,000.

Brothers Struck.

Lima, O., July 21.—James and Mike Holleran, brothers, attempted to cross the Lake Erie and Western railroad tracks and were run down by a switch engine. They were drunk and had locked arms when the engine hit them. James had both legs cut off. He raised up on the stumps, uttered a cry and fell back dead. Mike had one leg and an arm cut off, but may recover.

Bashful Man's Deed.

Akron, O., July 21.—Clarence Davis, a bachelor farmer who has been missing from his home at Montrose since early in the week, was found hanging dead in the granary at his farm. Davis was 40 years old, and too bashful, it is said, to find a wife. Neighbors believe he committed suicide because he was tired of living alone.

Girl's Sad Fate.

Akron, O., July 21.—Miss Eleanor Tuttle of Portland, O., died here of hydrophobia. She was a guest at the home of Dr. J. A. Huise. Three weeks ago a pet dog bit her ear.

Total for July to date..... 1.87
July 21st, 9:45 a. m.—Fair to-night and Tuesday.

"We point with pride to the passage by the Republican party in 1890 of the law devised by John Sherman to prohibit and punish combinations in restraint of trade, the control of wages or the advancing of prices." So says the Republican platform of Pennsylvania.

"The Republican party can have no pride in the Sherman act, except it be such as results from the triumph of deceit instead of truth," remarks a writer. "The Sherman anti-trust bill was made law twelve years ago, and in all that time there has been under its evasive provisions not a single combination punished because of its restraint of trade. The Sherman law is, and from the date of its passage has been, practically a dead letter, and there is convincing evidence of the fact that it was by its authors meant to be a dead letter. The Sherman law has not bound, and cannot bind, any trust which operates in restraint of trade, or in the control of wages, or in the advance of prices.

"Not only has the Sherman law failed to restrain the few trusts which existed at the time of its passage twelve years ago, but during the twelve years it has been on the statute books the most aggressive and sordid trusts have been formed, and are now flourishing without let or hindrance. The Republicans in Congress did not mean to interfere with the trusts when they enacted the Sherman law, and they meant when they passed the Dingley tariff law to promote and maintain trusts in restraint of trade, in the control of wages and in the arbitrary advance of prices."

Swamped With Business.

[Paris Gazette.]

The L. and N. railroad is almost swamped with freight at both ends of this division. An average of twenty-four freight trains pass through Paris every day, taking freight from Southern connections to the North. Fruit shipments from Florida, coal and coke from Jellico and the Pittsburg mines, timber from the mountain counties, miscellaneous shipments from different sources all pass through this city. The extra rush will continue for many months. Two operators have been added to the working force in the train dispatcher's office to keep up with the extra business.

A gang of "boozers" who were recently given stiff sentences in the Police Court took a keg of beer out in the suburbs Sunday and were having a time of it when Policeman Ort swooped down on them. "Squire Grant will dispose of their cases."

About two weeks ago Stanfield Youngman, of Robertson County, was bitten on the ear by a bug. Blood poison developed. Surgical aid was summoned, and two operations were performed. The patient continued to grow worse, and died Thursday. He was fifty-three years old.

The Keystone Commercial Company's new place of business, corner of Third and Sutton, shows up finely in fresh paint. The building is one of the oldest business houses in the city, but this is the first time it was ever painted. Mr. Lee Hauke did some artistic lettering in painting the sign.

Dover Messenger: "Mr. John Paul, Dover's oldest citizen, celebrated his eighty-seventh birthday yesterday, July 18th. His daughter, Mrs. G. W. Adair, and her husband, and Mrs. George Newdigate, of Maysville, were his guests, and all join in the hearty wish that he may reach many more years of happy old age."

The contract has been let for boring six wells in the new Strait Fork oil field in Lewis County. Sharp & Kernan, of Sugar Grove, Ohio, are drillers. The wells will be put down on leases held by the Strait Creek Oil and Gas Company, of which Senator Joe Blackburn is President. The hotels at Vanceburg are filling up rapidly with prospectors. Guifey & Galey, of Pittsburg, have a representative there. Leases are commanding handsome bonuses.

OUR FAITH

In the wise buying of Maysville's alert women prompted us to accept a line of exquisite DuBarry Silks offered at a remarkable price concession owing to the lateness of the season. We handled the same line early this spring—in this consignment there are a few of the identical patterns we bought then. Of course, as up-to-date women you know fashion assures a revival this fall of fancy silks in DuBarry and Pompadour designs—we might more correctly say, a continuance, as the approval of style was stamped on all fancy silks this spring.

If your summer wardrobe is complete it will certainly pay you to invest in one of these exquisite silk dress patterns for future use.

There are many colors in both strong and pastel shades with a flower strewn surface or in geometrical designs, the whole finished with high luster. The price is three-fifths the original cost—

75 Cents Instead of \$1.25.

D. HUNT & SON

SCHOOL PER CAPITA.

It Has Been Fixed at \$2.32 by the State Superintendent—Less Than Last Year.

FRANKFORT, KY., July 19.—State Superintendent of Public Instruction McChesney, after securing Auditor Coulter's estimate as to the amount that will accrue to the school fund from this year's taxes, to-day fixed the school per capita for the current year at \$2.32 and issued the following notice to the County Superintendents and Treasurers of the city School Boards:

"The per capita for the current year will be \$2.32. The decrease from the per capita of last year (\$2.50) is the result of a heavy falling off in the collections made for the year just closed from licenses, State banks and miscellaneous corporations. The shortage from these sources caused a large deficit which had to be taken into account in estimating the per capita for this year. Another cause of the decrease is that the recent General Assembly passed an act refunding to State banks taxes they had paid under the Hewitt law in excess of what they should have paid."

If the Kentucky war claim is collected next winter \$200,000 of it will go to the school fund, and will serve to largely increase the per capita for next year.

The school census for the State shows 732,784, and the estimate of the total fund is \$1,730,221.

O. H. P. Thomas & Co., Nos. 120 and 122 Market street, Maysville, Ky., sell Old Time Bourbon and Maysville Club Rye, direct from the distillery, by the quart, gallon or barrel; the finest in the State; guaranteed pure and as represented as to age. THE H. E. POGUE DISTILLERY CO.

CINCINNATI TOBACCO MARKET.

Increased Offerings and Receipts—Record Price Obtained for Hogshead of Burley.

	Week.	1901.
Offerings, hds.....	1,576	563
Total receipts.....	217	81
Actual sales.....	1,359	1,404
Total receipts.....	1,886	1,484

The 1,576 hds. offered averaged \$7.22 as against \$7.31 for the 1,297 hds. last week, and \$7.18 for the 563 hds. in the corresponding week last year.

A strong and active market, with increased receipts and offerings, marked the auction sales during the week. The good export and manufacturing demand still continues and last week's range in prices was fully maintained on all save the good medium tobaccos, which were a shade lower.

The bulk of the tobaccos on sale were of the inferior grades and common types, but the export demand for these, especially from the French Regie buyers, was a strong factor in sustaining prices.

In the low grades the good trashes and medium bright lugs around \$5.50 to \$7 were the best sellers. Good, clean color lugs under \$9.50 and choice bright leaf ranging from \$8 to \$10 were also strong features of the market.

The most interesting feature of the week's sales, however, was the cigarette cutters and wrappers, and the competition for the choice packages in these types was keen, sharp and lively. Quite a number of them sold at from \$15 to \$24.75 per 100 pounds, while four hogsheads of extra fancy bright wrappers sold at \$25.25 to \$32.

The latter figure is the record price for the year in the local burley leaf market, and was obtained by Clarence Lebus of Cynthiana.

Reports from the growing sections indicate that the crop is doing finely, and while the acreage may be from 10 to 15 per cent. below that of last year, it is believed the crop will be fully equal in quantity and of a much better quality generally. Miami Valley growers of cigar leaf tobacco are complaining of too much rain, which has a tendency to cause heavy body and rank growth, but in the burley belt the weather conditions are giving almost perfect satisfaction to the planters.

Receipts and offerings are expected to continue heavy for the next few weeks, but it is confidently believed that the present range of values will be fully maintained.

Paris Green

THAT KILLS.

Many imagine that all Paris Green is of equal potency. This is not the case. Analysis of samples from various makers shows that some have more than twice the strength of others. You have perhaps observed evidence of this in the failure of an application of Paris Green to your tobacco plants to rid them of worms. We guarantee the strength and effectiveness of the Paris Green we sell. The manufacturers have a reputation for the high and uniform excellence of their product. There's economy in using this Paris Green; it costs no more than the other kind, goes farther and always does the work.

BLOWERS.

The most economical way of applying Paris Green is with blowers. We have the latest improved ones.

ANNOUNCEMENT.

FOR CIRCUIT JUDGE.
We are authorized to announce FRANK P. O'DONNELL as a candidate for Circuit Judge, subject to the action of the Democratic party.

Hayswood Seminary,

MAYSVILLE, KY.

Boarding and Day School For Girls.

Fall term opens September 15, 1902. For catalogue or particulars apply to

MISS FANNIE L. HAYES, Principal.

Our Semi-Annual Clearance Sale Begins Saturday, 19th.

We will offer values that are incomparable in quality and price. Quoting prices in the papers gives you but a faint idea. See Merchandise and learn prices. Our Clothing Window will tell the story much better than we can tell it to you in newspapers. It is almost needless to tell you that, no matter how cheap in price the goods in this sale will be sold, the qualities will be up to our standard. Goods sold during our Clearing Sale will be sold for cash only.

THE BEE HIVE

Like Ripe Fruit

Our stock is worth picking from, for it is always FRESH, and to keep it fresh and clean we often make big sacrifices and now is a time that we are sacrificing, for the carpenters will soon take possession of the second floor.

We Need the Room; Do You Need the Goods?

Lots of our customers lately have been disappointed. They asked for samples of goods they wanted, but when they came to purchase they found the goods gone. A hint to the wise: Don't put off until to-morrow what you can buy to-day, for there are others who see these bargains too. Do you see the point?

MILLINERY SPECIAL

Your choice of any of our fine Trimmed Hats, worth up to \$6, \$1.98. CARPET REMNANTS—We have marked these remnants at re-building prices. Nuff said.

Regular meeting to-night. Business of importance. All are requested to be present.

Miss Ada Calhoun is quite ill at her home on Market street.

Once Upon a Time

A Hard Customer bought some hickory nuts of a youthful vendor, thinking she had "struck a bargain" because they were "cheap." Finding them mouldy, the old lady complained to the little merchant that they were "not what they were cracked up to be."

That's similar to the experience of some Shoe customers. Attracted by ridiculously low quotations, they find, after trial, that their purchases are "hard nuts," and often worth little more than the paper they were wrapped in.

We would have it distinctly understood that while our Shoe offerings just now are in the nature of bargains, Men's lines having been reduced to \$3.00 that earlier in the season sold at \$3.50, \$4 and \$4.50, the goods are exactly what they are "cracked up to be," and your inspection is invited to verify this statement.

BARKLEY..
CASH SHOE CO.

L. S. Wyatt, of Augusta, gets an increase of pension to \$10 a month.

Police Judge Whitaker had ten cases of plain drunks to dispose of this morning.

Don't forget the ball game here next Thursday. Maysville versus Higginsport.

Jennie Moore of Aberdeen has been employed to teach the colored school at Dover.

Charles T. Dawson has sold to James P. Ingram a house and lot in Sixth ward for \$350.

The Ohio River Lumber Company's new mill in the Sixth ward will soon be ready for the roofers.

Saturday's Courier-Journal contained a half-tone of Vice President William G. Heiser of Maysville's Board of Education.

Mr. John L. Shuff, who married Miss Thompson of this county, has recently completed a beautiful new home on "Rose Hill," Avondale, Cincinnati.

A statement of the condition of the First National Bank appears in to-day's issue. It shows deposits of \$308,900.58, a surplus fund of \$21,000 and undivided profits of \$22,651.60.

Mr. Frank Cady left Sunday for Columbus, O., where he goes to take an agency with the Western and Southern Life Insurance Company. His friends wish him success in his new field.

McCarthy has moved his jewelry store to Ballenger's old stand, where he has the finest line of goods to be found in Maysville. Call and see him when you're looking for anything in his line.

The Eastern Kentucky Oil and Gas Company has placed an order with a large saw mill company for timber to erect derricks and expects to begin boring near Oligo-nunk caves within the next thirty days. It has leases on nearly one-half the land in Carter County.

Elder R. E. Moss, minister of the Christian Church, arrived from Nashville Saturday evening and was greeted by a large audience Sunday morning, receiving a warm welcome home. At the night service Howard T. Cree, former minister, preached to another large audience.

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whiskey, apple and peach brandy, California brandy, malt gin, California port, sherry and Maderia, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

DIED SATURDAY NIGHT.

Wife of Mr. W. J. Kehoe Passed Away at Her Home in Washington City.

A telegram Sunday to Congressman Kehoe announced the death of Mrs. Mattie Kehoe, wife of his brother, Mr. W. J. Kehoe, of Washington City. She had been an invalid several months.

Last November she underwent a delicate surgical operation, but the hopes of her physicians and relatives that it would restore her health were not realized, and the end came Saturday night.

Mrs. Kehoe was a Miss Webster, of Cincinnati, and was about fifty years of age. Her husband survives, with two sons and two daughters. A third daughter died a few years ago.

The funeral takes place this afternoon at Washington City, and the remains will be laid to rest in that city.

Hon. Gavon D. Burgees, born in Mason County in 1833, has been nominated by Missouri Democrats for Judge of the Supreme Court of that State. He has served on the Missouri bench for many years.

Judge O'Rear, of the Appellate Court, Saturday dissolved the injunction recently granted by Circuit Judge Auxier at Pikeville in the case of the South and Western railway against the Big Sandy division of the C. and O. Railroad Company.

A suit filed in the Common Pleas Court at Cincinnati Saturday by Edward Loudon, asking for a receiver for the Cincinnati Leaf Tobacco Warehouse Company, a million and a half dollar corporation, threatens to bring into litigation again what was considered a great piece of legal work—that of reorganizing the Cincinnati Leaf Tobacco Warehouse Company, a corporation under the laws of Kentucky, into the Cincinnati Tobacco Warehouse Company, incorporated under the laws of Ohio. Loudon has a judgment of \$1,991 against the old company.

Paris Democrat: "George W. Martin, formerly located in this city as an employee of the L. and N. railroad, was here Thursday after an absence of eighteen years. He is now located in El Paso, Texas, and is a conductor for the Southern Pacific. Last September he fell from a bridge twenty-five feet and broke his back, and since that time has been off duty, but the road is paying him \$100 per month until he can recover from his injuries. Mr. Martin says that Lon Haley, John Seamonds and Jule Vest, formerly with the L. and N., are conductors on the Southern Pacific. M. A. Martin, son of the late Robert Martin, is Chief Clerk for the road, with headquarters at Tucson. Epes Randolph, who was formerly Superintendent of the Southern, is now General Manager of the Huntington Street Car System in California, with headquarters at Los Angeles, and his salary is \$15,000. C. C. Sroufe, formerly of Mason County, is now Superintendent of 565 miles of the Southern Pacific at a salary of \$5,000."

Mr. Martin is a brother of Captain John T. Martin of this county.

FLOUR!

You want the best and we are able to give it to you cheaper than your mills can mill it. The thousands of our customers who have used Top-notch Flour speak its praises and pronounce it superior to all others. Full 196 pounds to barrel only,

\$4.25

We expect a car-load in by first of month. Look out for lower prices. Our trade on last Saturday was something tremendous, showing that the people appreciate the very low bargains we are constantly offering them, and especially on bargain days. Your purse will be heavier and your heart lighter by dealing at

—Landlord H. B. Daugherty, of Central Hotel, arrived home Sunday after a two weeks stay at Mt. Clemens, Michigan. His daughter, Miss Anna, who accompanied him, stopped at Covington to spend a week or so with relatives.

Machine For Laying Bricks.

Commercial Agent F. S. S. Johnson, of Stanbridge, Canada, reports to the State Department at Washington, regarding a recent invention for bricklaying by machinery instead of by hand.

He says: "The machine, worked by two men and a lad, will lay 400 to 600 bricks per hour. Door and window spaces cause only a slight delay. The machine is suited for all plain work, such as walls, sheds, mills, factories, rows of cottages, piers of bridges, &c., and will do the work of six or seven skilled bricklayers."

In the line of diamonds, watches and fine sterling silver we are showing the handsomest line to be found in the city. Our prices are lower than goods of similar quality can be bought for anywhere. Have a look. MURPHY, the Jeweler.

15 Cents

Buys the very latest Novelty in this summer goods, just from the packing cases; it's a very fine Dimithy with a solid broad stripe; three colors, the Shamrock, oxblood and blue, nothing like it in town; come and get a Waist Pattern.
